FLANNEL SHEETS

Why Flannel Sheets?

Flannel is generally constructed of loosely knit cotton, wool or synthetic fibers. It is known for its warmth, softness and easy care. Flannel sheets are perfect for layering in cool weather. These sheets also have the ability to wick moisture away from the body, as they are very absorbent.

Our flannel is developed using an 8-stage brushing process. This treatment enhances the softness and coziness of the sheet. With each wash our sheets become more soft, plush and comfortable. Our sheets are easy care products, they are shrink, wrinkle and pill resistant.
